

GREUS Sauvignon Blanc, white dry wine

The wine is produced from the second harvest hand-picked, ripe grape variety 'Sauvignon. Blanc' own vineyards located in the village of Kamemar and Pomorie, 4 km from the cellar.

Temperate climate with typical currents and sea, concomitant with high stratospheric humidity during the harvest, which favors the cultivation of white grape varieties.

Attractive color with a slight greenish tinge. Delicate nose with hints of fruit - lychee, grass, herbs, and emphasized freshness, which gradually opens in the glass. Mild in flavor, with fine and juicy acids, with a good balance - ending a long and pleasant, lingering aftertaste.

The wine is available in bottles of 0.75l.
